SWIFT'S

ANIMAL FERTILIZERS

Active all the time

The Most Efficient Crop Producers

are those fertilizers which supply plant food in an available form when needed.

Swift's Animal Fertilizers are made from animal products—Bone, Meat and Blood—combined with High Grade Potash. They do more than supply fertility—they build up soils for future years.

Biggest Crop He Ever Raised

I planted five acres of corn this season, having bought your fertilizers through your agent in our town. I used 450 lbs. of Swift's Special Fertilizer to the acre, and notwithstanding the season was very dry, I harvested the biggest crop I ever raised. It was immensely thick and well eared, giving me 600 bushels of ears.

H. H. BROOKS,
Ashby, Mass.

The Grange Prefers Swift's

At the Grange Meeting last Saturday evening the subject of fertilizers was discussed, what was used, the results, etc. Everything went to show that Swift's goods had the lead. All preferred the kinds that Mr. Blake sold to any and all others that the farmers had used, and *Swift's Fertilizers* will take the lead here in the future if the standard of the goods is kept as good as now.

[Signed] H. A. BLAKE,
Sutton, Vt.

They are adapted to all soils and all crops—for use with or without manure. In your own interests, look into this fertilizer question *now*—while you have the time. If you don't know who our local agent is, write us. Our free Pocket Handbook gives valuable crop information.

We have some good territory open for responsible agents.

Swift's Lowell Fertilizer Co., 40 N. Market St., Boston, Mass.

Free Premium Offer

To anyone purchasing \$6.00 worth or more of seeds at catalog prices and for cash, we will upon request send them an "Old Reliable" Dietz Lantern. This lantern is much superior to the common kind usually sold. Safe and convenient and gives the brightest light.

Portland, Me., March, 1910.

I had my first experience with a garden last year and the Beefsteak Lettuce I raised was the talk of the town. I sowed the seed you sent me out doors and my lettuce grew fully as fast as that of others near me who transplanted.

The red shades in this variety make it fine for decorating and it eats as tender and crisp as any I ever tried.

PINE TREE STATE SEED COMPANY

FRIENDS AND PATRONS:

This little book we place in your hands, hoping in so doing that you will be induced to place your order for Garden, Field and Flower Seeds with us.

It is not for a moment presumed we grow all our own seeds or that ours is the only good seed in the market, but it is believed to be as good as the best; as pure, as fresh, of as high a grade, **and as true to name as any**.

There is no economy in buying cheap, inferior seed. We have carefully revised prices for our new Catalogue, and believe the figures will compare favorably with those of other dealers when quality is taken into account.

We do not put out anything but what we would be willing to plant ourselves.

We are now ready to again serve you with the largest and choicest stocks of seeds we have ever had. Should you favor us with an order large or small, the same will be greatly appreciated and receive our prompt attention.

To Our Old Customers We hope we may have another order from you this season. We appreciated your order last year and tried our best to please you. The old customers are the backbone of the business, but of course, we are always glad to get an order from a new one. We will look for another order from you and we want you to speak a good word for us to your neighbors if you get a chance.

Why not get your Seeds Free? Your neighbors and friends will all have to have some seeds, and we can offer them a better deal than they can get anywhere else. Big packages, good, honest seeds and fair dealing. We have a number of customers who make a good thing taking orders for our seeds among their neighbors.

Try and get up a club, we will send you some extra catalogues and order blanks free. It will not cost you a cent to try anyway. If you don't get any orders no one is out anything but us and we will take a chance on it.

We will wrap each order separately and properly label them and will include lots of free packets.

When the seeds arrive, if everything is not just as we told you, you can have your money back. Ask the Bath National Bank of this city if we will stick to what we say. **Write today for our terms. We will pay you a liberal cash commission to act as our agent.**

Seeds for School Gardens Gardens for children are being established in many cities and towns as a part of the school curriculum. Children acquire more general knowledge of value in doing things than they could get from book study alone. To allow a child to grow up without planting a seed or rearing a plant is a crime against civilized society.

We hope in a few years to see an hour's garden work several times a week given to every child in the primary grades in all schools. We will be glad to correspond with teachers or others who desire to purchase seeds for this purpose. We will make special low rates on all kinds of seeds that are to be used for this purpose.

To Members of the Grange You can save money by getting up a Seed Club in your Grange and sending the order to us. Write for full information about the advantages secured on Grange orders.

A beautiful Grange emblem gold pin free if your order amounts to a dollar or over. Be sure and state the name of your grange and if wanted for a lady or gentleman. These beautiful gold pins are in the shape of a shield and guaranteed to wear for years.

Order.—Early. **Terms.—**Our terms are cash. **Remittances.—**May be made by check, express or postoffice order or money in registered letter; small amounts in stamps. **Packing.—**We make no charge of boxes, bags or packing, or delivery to depot or express office. **Seeds Postpaid by Mail.—**We pay the postage on seeds by the packet, ounce and quarter pound. Add at the rate of ten cents per quart on corn and fifteen cents per quart on beans and peas. **Address.—**In ordering be particular to sign your name, postoffice, R. F. D. route, county and state, plainly. **Small Orders.—**If you only want a single packet, do not hesitate to send for it. **Free Seeds.—**With every order we shall include free of charge, a liberal amount of Trial Packets. **Seed Packets.—**Our Vegetable and flower Seeds are put up in neat packets, large and well filled. **Agents.—**We want an agent in every town. **Write for terms.**

25 cents WORTH OF SEEDS EXTRA WILL BE ALLOWED ON EACH ONE DOLLAR SENT FOR SEEDS IN PACKETS AND OUNCES

Kind Words From Our Friends

They are proofs of merit, such testimonials cannot be bought.

Lewiston, Maine, Nov., 1907.

"I received the bulbs I ordered and many more for which I thank you very much. You were more than generous with extras."

MRS. E. C. WELLMAN.

From the Maine Farmer: "The Pine Tree State Seed Company at Bath are importers and growers of pure and genuine flower and garden seeds. Their seeds are fresh, true to name and of the finest quality, such as will produce nothing but the best. This company is to be warmly commended for their efforts to introduce Maine grown seeds."

A testimonial we are proud of, from the wife of Past Master of the National Grange.

South Bend, Ind.

"Having received a generous supply of seeds from you last spring, I am anxiously waiting for your catalogue to again send in my order. I cannot say enough in praise of the excellent quality of your seeds. They were perfect; not a seed failed to appear."

Very sincerely,

MRS. AARON JONES.

Good Will Farm, Hinckley, Maine.

April 3, 1908.

"Seeds arrived, safely and promptly and we were greatly pleased with them. You may feel sure of a larger order next year."

CHAS. F. NUTTER.
Asst. to Rev. G. W. Hinckley.

Berwick, Me., April 13, 1908.

"Your seeds came wonderfully and are the best seeds we have had. We can not praise your seeds high enough."

MRS. LOVINA D. MURRAY.

Randolph, Vt., May 1, 1908.

"The seeds came all right. We never had so many in a package before. They are bright looking seed, shall surely recommend them when ever we have an opportunity."

GEO. C. FLINT.

A pleasing testimonial from the wife of the Master of the Maine State Grange:

Alta, Maine, May 18, 1908.

"Accept my sincere thanks for your kindness in sending me so many extra packets. My Sweet Peas last season were the most beautiful I have ever had and all other seeds received from you gave perfect satisfaction. I enclose an order for vegetable seeds."

MRS. S. C. STETSON.

Perry, Maine.

"Received the seeds previously ordered and are much pleased with the size of the packages, and best of all we know that the seeds will all grow, as we have used your seeds before with the best results."

LOUISE C. WASHBURN.

Mr. E. H. Libby, Secretary of the Maine State Grange, writes as follows:

"The flower seeds received from you last spring were very fine and my wife was very much pleased with them. No one makes a mistake in buying your seeds."

Lowell, Mass., March 2, 1906.

"While visiting in Maine last summer I had several bouquets brought to me, and the flowers were so beautiful and different from any I had ever seen, I had to ask where the seeds were bought, and your address was given me. If you have a catalogue please send me a copy."

MRS. C. C. BERRY.

Middlesex, Vt., May 3, 1908.

"Received the seeds all right and am very much obliged for the very generous amount of complimentary packages."

J. A. CHAPIN.

Riggsville, Me., Dec. 16, 1908.

"The vegetable seeds I bought of you last spring were the very best I have been able to buy since I came to Maine, over five years ago. The Buckwheat, Barley and Hungarian grew all right. Will do my best to get others to buy your seed."

W. F. NUTTER.

Col. H. S. Foster of No. Calais, Vt., writes: "The seeds received from your house were O. K. You will get an order from me soon and a good sized one."

Lisbon Falls, Maine, Dec. 10, 1909.

"Received my Grange pin. It is a beauty. The seeds we received from you were all extra good and true to name."

EVA M. CARVILLE.
Secretary Pine Tree Grange.

Mere Point, Maine, Sept. 10, 1909.

"All the seeds received from you were excellent and paid for themselves many times over."

EDITH SKOLFIELD SMITH.

"Inglenook," Monmouth, Maine, Sept. 11, 1909. Pine Tree State Seed Co., Bath,

"Simple justice prompts a recognition of the superior quality and germinating power of the garden and flower seeds ordered of you last spring. I never saw a richer assortment of Sweet Peas or greater wealth of bloom. I think them superior to any furnished by you the past ten years. I must attribute the earliness and abundance of garden crops to the same critical selection of seed and testify my appreciation of the same. Especially would I mention "Sutton's Excelsior" and "Admiral Dewey" Peas. Commenced using the last of June and they held good until the last half of August. I consider "Sutton's Excelsior" the richest, sweetest and best all around pea I ever grew, about one week later than the earliest but growing vigorously and bearing abundantly. For a later, rank growing, heavy bearing pea, of choice quality, give me the "Admiral Dewey." Shall want a larger supply early in 1910."

Very truly,
G. M. TWITCHELL.

Novelties and Specialties in Vegetable Seeds

CRIMSON GLOBE BEET.—This beet is remarkable for its smooth skin and fine shape, and it does not grow large and coarse. The flesh is very dark and quality fine, sweet and tender. Pkt. 5c; oz. 15c; 1-4 30c.

BEEFSTEAK LETTUCE.—This grand new variety grows to an immense size, makes large loose heads of a rich and buttery flavor. The leaves are of a soft green tinged and flaked with red, never grows bitter. A fine summer variety. Pkt. 10c; oz. 30c.

**BRITTLE ICE LETTUCE**

LETUCE, BRITTLE ICE.—Very large, extremely crisp, hard-heading variety. The plants grow to a large size, sweet and mild in flavor. Pkt. 10c; oz. 25c.

LETUCE, MAY KING.—A new early head lettuce, its growth is extremely rapid and its fine large heads are ready in advance of any other heading variety. Crisp and very brittle. Pkt. 10c; oz. 25c.

ALL SMOOTH CUCUMBER.—A variety of the highest merit. The fruits are large, extra smooth and very regular in form a rich dark green color, retaining its color until fully ripe, the smoothest cucumber grown. Pkt. 10c; oz. 20c.

SUTTONS EXCELSIOR PEA.—A new early dwarf English variety. Pods very large and well filled with delicious flavored peas. Grows about 18 inches high. Pkt. 10c; pt. 20c; qt. 40c.

THE NEW DAVIS PERFECT CUCUMBER.—This new variety beats all others in points of beauty, quality and productiveness, a beautiful dark green color, handsome shape and enormously productive. This variety enables one who has not glass to produce the same high priced cucumbers as those grown in a greenhouse. Pkt. 10c; oz. 20c; 1-4 lb. 50c.

PRINCE EDWARD PEA.—A brand new large wrinkled sort, produces the largest and best filled pods of any pea in existence. A very heavy cropper, pods of immense size, a rich dark green. Grows 3 to 4 feet high. Pkt. 10c; pt. 20c; qt. 40c.

VOLGA CABBAGE.—A new variety from Russia. We highly recommend it as a mid-summer to fall sort. It grows very uniform, heads nearly round, and of equal size and is one of the most remarkable heading sorts we ever saw. Pkt. 10c; oz. 30c.

MUSK MELON GOLDEN GEM.—A new round variety, flesh deep rich orange and of the most exquisite flavor. Pkt. 10c; oz. 20c.

GOLDEN BANTAM SWEET CORN.—One of the best extreme early variety. Dwarf and sturdy in habit, growing about four feet high and bearing two and three good ears to each stalk. The ears five or six inches in length having eight rows of broad yellow grains of a delicious flavor. Pkt. 10c; pt. 15c; qt. 30c; selected ears 10c each.

EASTMAN'S SPECIALTIES

(In the Original Packages)

EASTMAN'S BRIGHT AND EARLY TOMATO.

—We consider it the best combination of earliness, yield and quality yet attained in this vegetable. Color deep red, uniform in shape, of finest flavor and very early. Pkt. 5c; oz. 50c. Extra selected 10c pkt.

EASTMAN'S EARLY SWEET CORN.—This variety still holds the lead in earliness, outyielding every other early kind. Two good ears on a stalk and of finest flavor. Qt. 45c postpaid; pt. 25c; pkt. 5c; extra selected 55c qt.; 30c pt.; 10c pkt.

EASTMAN'S IDEAL SWEET CORN.—Closely follows Eastman's Early, possesses the Sweetness of Crosby and is more prolific. All that can be desired for quality. Qt. 75c postpaid; pt. 40c; pkt. 10c.

PURITY CUCUMBER.—A pure white variety, mild flavor containing few seeds, the best for ripe cucumber sweet pickles. Pkt. 10c.

LIGHTNING BUSH BEAN.—The earliest of all beans, very tender when young as a string bean and a little later are fit for shelling. Qt. 50c postpaid; pt. 25c; pkt. 10c.

METCALF SQUASH.—The best market variety for fall and early winter, very productive, medium size, in color, a deep rich orange and of superior quality. Pkt. 5c; oz. 10c; 1-4 lb. 30c; lb. \$1.00.

FARMERS' FRIEND POTATO.—Best of all the early varieties, very productive, disease proof extremely early, superior table quality and of uniform size. Per bu. \$3.50; peck \$1.00. By mail postpaid per lb. 25c, tubes 10c.

ADMIRAL DEWEY TOMATO (new).—One of the finest in every respect, early, smooth and uniformly handsome, ripens clear up to the stem, superior to all other varieties for main crop for canning or shipping, of large size and bright scarlet color. Pkt. 10c; oz. 35c.

EARLIANA TOMATO.—The earliest smooth, bright red tomato of good size and flavor now in cultivation. The plants are hardy, well set with fruit, nearly all of which ripen extremely early in the season. The flesh, a deep red. Pkt. 10c; oz. 30c.

EARLY JUNE PINK TOMATO.—This new variety is a beautiful deep pink in color, very early and of fine flavor, sweet and mild. The fruits are set in large clusters. Pkt. 10c; oz. 30c.

TOMATO CHALKS EARLY JEWEL.—The largest of the extra early bright red tomatoes. The plants are immensely productive, sweet flavored and very early. Pkt. 10c; oz. 35c.

PEEP-O-DAY SWEET CORN.—Ten days Earlier than any other sort and the sweetest of all Extra Early Corn. The stalks 3 1-2 to 4 1-2 feet high and bear from two to five ears, will stand very close planting. Pkt. 10c; pt. 15c; qt. 25c.

WATER MELON YANKEE

WATER MELON YANKEE.—Best for New England. This new melon is a fine variety for the family and market, very early and prolific. The bright red flesh is cool, crisp and sweet. Will mature anywhere in Yankee land. Pkt. 10c; oz. 25c.

CORN GOLDEN NUGGET.—Sweetest on Earth. The ears of this new Golden Sweet Corn are larger and more prolific than Golden Bantam, tender and unusually sweet. Ready for market only a few days behind the earliest. Pkt. 15c; pt. 20c; qt. 40c.

New Sweet Peas

COUNTESS OF SPENCER.—Large wavy petals, soft, rose-pink in color, free flowering. The large, handsome flowers are produced on long stems. Pkt. 10c; oz. 25c.

FLORA NORTON.—A beautiful rich lavender. The flowers are large and fine form. Pkt. 10c; oz. 20c.

VIOLET KING.—A deep glowing violet purple. A strong grower. Pkt. 10c; oz. 20c.

MRS. AARON JONES.—This beautiful new Sweet Pea was named in honor of the wife of the Master of the National Grange. The color is a soft but brilliant pink. A fine large flower and of strong, vigorous growth. Pkt. 10c; oz. 15c.

MRS. HIGGINSON.—A delicate lavender. Best of all lavender sorts. Pkt. 5c; oz. 15c.

KING EDWARD VII.—Bright crimson of enormous size and borne upon long stems. Pkt. 5c; oz. 15c.

ROYAL KNIGHT.—A deep glossy maroon. The best of all the dark maroons. Pkt. 10c; oz. 15c.

WILD ROSE.—Flowers almost uniformly three on a stem, of large size, a deep rose pink. Pkt. 10c; oz. 15c.

MISS WILMOTT.—A new English variety. Of the richest orange pink, delicately shaded rose. These enormous flowers are borne erect on stiff, long stems. Pkt. 5c; oz. 10c.

THE HON MRS. E. KENYON.—A beautiful, primrose color. Pkt. 5c; oz. 10c.

DOROTHY ECKFORD.—A splendid, new early white Sweet Pea. The flowers are of a fine paper white, of good size. Pkt. 5c; oz. 15c. Ten packets of any of the above new varieties for 50c. postpaid.

New Tall Nasturtiums

TALL NASTURTIUM, TWILIGHT.—The flowers are extra large in size and of the full, expanded form. They are most distinct and pleasing in color, having a faint salmon or buff tint heavily overlaid or suffused with a deeper rosy salmon. Pkt. 10c.

TALL NASTURTIUM, MOONLIGHT.—This is a companion variety to the preceding, with flowers fully equal in size, but of an exquisite pale straw yellow. Pkt. 10c; oz. 15c.

TALL NASTURTIUM, SUNLIGHT.—This grand variety bears flowers of largest size, most beautifully colored—clear, rich golden yellow, and are produced so profusely as to almost conceal the large dark green foliage. Pkt. 10c; oz. 15c.

TALL NASTURTIUM, MIDNIGHT.—The foliage is a deep, dark green and bears an abundance of bloom of wonderful rich coloring, the darkest of all nasturtiums. The flowers are deep, brownish red and are borne profusely. Pkt. 10c; oz. 15c.

TALL NASTURTIUM CAPRICE.—The flowers are of extra large size in a wonderful variety of colors. Pkt. 10c; oz. 20c.

TALL NASTURTIUM, PRESIDENT McKinLEY.—Both flowers and foliage are of a rich, dark coloring, the flowers being a deep, rich velvety crimson, profuse bloomer. Pkt. 10c; oz. 20c.

TALL NASTURTIUM VARIEGATED LEAVED.—A new race of Nasturtiums, every leaf is variegated, with yellow, white, and green beautifully blotched and striped. The flowers of many bright colors in charming contrast to the handsomely variegated foliage. Pkt. 10c; oz. 35c.

TALL NASTURTIUM IVY LEAVED.—The leaves are of a rich green veined with white resembling the foliage of the English Ivy. The flowers are of many colors and star-like in appearance. Pkts. 10c. Five packets of any of the above for 30c.

Positively the Only Thing Needed for All Pests or Fungus

A tonic for vegetation. Sick trees made well; old trees rejuvenated to youthful vigor, better foliage; larger and more abundant fruit. Neither sucking or chewing insects nor fungus will attack wood that has “One for All” upon it. After one fall spraying no dormant spraying will be needed. Spraying confined to the growing season. Scale exterminated. Positive evidence from practical growers furnished upon application.

AGE OF THIS SHEET BEFORE MAILING

To our Customers:

We are so impressed with the February issue of The Garden Magazine which we have just finished reading, that we would like to devise a plan that would make all of our customers subscribe to it.

This magazine has been good from the beginning and is getting better all the time. Today it is by far the best gardening periodical in the world and worth much more than a dollar to the owner of the smallest or largest garden.

Our recommendation should induce every one of our customers to subscribe, but it won't, so we have persuaded our company to make the following offer:

Every customer who sends an order for \$2. may add a subscription to The Garden Magazine for six months or for \$4 orders a subscription for one year.

The customer who receives The Garden Magazine will be a better one - easier to do business with, because he will get better results. So it is plain that we do not make this offer for philanthropic purposes.

The illustrations are alone worth the price - a delight and an education. Articles on cultural directions are real directions, written by real gardeners who know how to write.

Perhaps you are not going to send us an order this year. If not, write your name and address on the margin of this sheet and send it with the dollar, direct to Doubleday, Page & Company, 137 East 16th Street, New York. We are sure you will thank us for the suggestion before another season passes.

Yours very truly,

Pine Tree State Seed Company.

Important Announcement.

To the patrons of the EASTMAN SEED CO.:—

Having two years ago accepted the Oxford County agency of the Union Mutual Life Insurance Co., and wishing to devote my time more extensively to that business, I take pleasure in announcing that our mail order business will be continued by the

Pine Tree State Seed Co., Bath, Maine.

who will act as selling agents for our exclusive specialties, and carry a full line of general seed supplies. I shall, however, continue to grow the leading specialties our house has put out, and endeavor to maintain the high standard of the "Eastman grown" stock.

I take this opportunity to thank our customers of the past twenty-five years for their generous patronage, and bespeak for our successors a continuance of the same.

Yours for good seeds,

WELLINGTON H. EASTMAN.

Eastman's Specialties. For 1910.

Bright and Early Tomato.

Of the novelties we have introduced during the past twenty-five years, the greatest favorites have been the ones in which extreme earliness is one of the leading characteristics. Eastman's Early Sweet Corn, the Lightning Bean and the Granite State Musk Melon stand in evidence as striking examples, the demand for each increasing each year. The Bright and Early Tomato is no exception. We consider it the best combination of earliness, yield and quality yet attained in this vegetable, and where best known is the leading early tomato for home use and for early market. We have repeatedly tried it in comparison with the leading early varieties, and the BRIGHT AND EARLY has invariably been first to ripen. Extensive tests elsewhere point in the same direction. One market gardener reports that with him it was fully two weeks ahead of any other variety, over fifty kinds being tested. The form of the BRIGHT AND EARLY is nearly round, somewhat flattened with smooth surface, free from irregularities. Color is a deep, handsome red, very uniform in shade. The skin is firm and free from cracks, the flesh solid and of finest flavor. While some large specimens are produced, the average size is slightly below medium. But whatever is lacking in size of the individual fruit is more than made up in the immense clusters in which they are borne. In ordinary field culture on an extensive scale they have yielded with us at the rate of over five hundred bushels of ripe fruit to the acre. Best re-

sults are obtained both in quality and quantity of yield, and especially earliness, if high manuring is avoided.

Per oz. 50 cts., pkt. 5 cts.

BRIGHT AND EARLY, EXTRA SELECTED.
From our field of seed tomatos, we each season pick at the rate of four or five bushels to the acre of earliest ripe fruit, the seeds of which should give a little better results in earliness than the general run of the crop.

Per pkt. 10 cts.

Eastman's Early Sweet Corn.

Eastman's Early Sweet Corn still holds the lead in earliness. Although every few years some new variety is offered that is claimed to be from a week to ten days ahead of anything else, when tested on our trial grounds they are invariably outstripped by Eastman's Early planted alongside. It is the finest flavored of the extra early varieties, and outyields every other early kind we have ever tested, two good ears on a stalk being common when it is given plenty of room. It has white kernels and a pure white cob, during all the years our customers have planted it we do not recall a single unfavorable report, and the demand for it steadily increases. Our sales of Eastman's Early exceed that of all other varieties of sweet corn combined.

Per quart 45 cts. (30 cts. by express); pint 25 cts.; pkt. 5 cts.

Eastman's Early, Extra Selected. It has always been our practice to go through our field of Eastman's Early each year and select the first and best ears for our own seed stock, thereby perpetuating and accentuating its leading characteristic of superlative earliness. The past few seasons we have made a little more thorough selection and harvest of the first-fruits, and offer at a slight advance in price to such of our customers as prefer to pay a little more for the probable gain of a few days in time of maturity.

Per qt. 55 cts. (40 cts. by express); pint 30 cts.; pkt. 10 cts.

WHAT OTHERS SAY OF IT.

At N. H. Experiment Station, in a field test of 41 varieties, Eastman's Early took the lead in earliness, yield and quality.

U. S. Department of Agriculture tests, conducted at their Experiment Stations in Maine, New Hampshire, Nebraska and Virginia, with Cory, Peep 'O Day, Golden Bantam, etc., in comparison, EASTMAN'S EARLY led all other varieties in earliness.

Eden Trial Grounds,
Raynham, Mass., Dec. 19, 1908.

Your re-selected EASTMAN'S EARLY sweet corn is the earliest sweet corn, beating Peep 'O Day the last two years by a week or more. It is a SWEET corn, also a heavy cropper, 3 to 5 ears on many stalks every year. I had everything known in the sweet corn line for trial this year, but nothing proved as early as yours.

(Rev.) J. R. Lawrence.

Eastman's Ideal Sweet Corn.

Several years ago we started to originate a sweet corn to follow Eastman's Early. We desired something to be ready for the table as soon as that variety was past its prime, and to surpass it in every point except earliness. After repeated trials we attained the points sought for, and first offered our new creation in 1909, under the name of EASTMAN'S IDEAL. The IDEAL closely follows Eastman's Early in point of maturity, possesses the sweetness of the Crosby, and is more prolific than either. The ears are twelve to sixteen rowed, of good size, and all that can be desired for quality. We predict for it a leading place as a market variety.

Per qt. 75 cts. (60 cts. by express); pt. 40 cts.; half-pt. 20 cts.; pkt. 10 cts.

Purity Cucumber.

Starting with one of the tender foreign varieties of white cucumber, we spent several years in improving and acclimating it until in 1900 we offered it under the name of PURITY. While pre-eminently an exhibition variety, it is in its early stages unsurpassed for the table, crisp, tender, of the mildest flavor, which we have never known to be tainted with the slightest hint of bitterness. We do not recommend it, however, for a general crop, but for limited family use and exhibition purposes. It is now thoroughly Americanized, and may be depended on under ordinary conditions to produce a crop of the fairest and purest cucumbers imaginable, many specimens from two feet upwards in length. No variety equals it for ripe cucumber sweet pickles. It has but few seeds, consequently must always be higher priced than the common sorts.

Per pkt. 10 cts.

Lightning Bean.

This earliest of all beans has proved one of our most satisfactory introductions. Side by side with other extra early varieties on our trial grounds, it has exceeded them in earliness in every instance. While not quite equaling Jack's fabulous bean stalk of the fairy tale, that grew up and blossomed in a night, it still needs to be closely watched when the beans begin to form, as a very few days from the blossom will give pods suitable for string beans. At this stage of their growth they are very tender and of rich flavor. But they keep right on growing, and in a few days more the pods have toughened and not long after they are fit for shelling. It exactly resembles the old Fejee in appearance, but with us it has come into bearing fully two weeks ahead of that variety.

Per qt. 50 cts. (35 cts. by express); pint 25 cts.; pkt. 10 cts.

Metcalf Squash.

In yield the Metcalf outstrips every other variety of table squash. It has been for years the local favorite in the vicinity of Lewiston, in this State, nearly driving other varieties out of the markets of that city during the fall and early winter. It closely resembles the well known Boston Marrow, with the good points of that popular variety intensified, differing from it, however, in being more uniformly of a deep rich orange, in growing somewhat more irregular in shape, and in having, in many specimens, a decidedly rough exterior, and a somewhat thicker skin. It possesses all the characteristics of a good market variety for fall and early winter use, being productive, of good market size, and of superior quality. The illustration is engraved from a photograph of two average specimens grown on our own grounds.

Per lb. \$1.00 1-4 lb. 30 cts.; oz. 10 cts. pkt. 5 cts.

Tattooed Yankee Pop Corn.

This curiously marked pop corn has proved one of the most taking novelties we ever put out. It is of the "rice" or "squirrel tooth" type, and the colors, golden yellow and tattoo black, are in such marked contrast as everywhere to attract attention. Its fine appearance, superior quality for popping, earliness and large yield, admirably fit it for a market variety as has been demonstrated. It is just the thing to take the premiums at the fairs in the fall. Our artist has endeavored to show its peculiar appearance as far as possible in black and white on a reduced scale.

Per quart 50 cts. (40 cts. by express;) pint 30 cts.; pkt. 5 cts.

Farmer's Friend Potato.

This variety was originally introduced by us as the "Nameless," and received its present name by vote of our customers. The

ten points of excellence claimed for it were (1) extreme earliness, (2) vigor of growth, (3) ability to withstand disease, (4) productiveness, (5) uniformity of size and small proportion of undersize, (6) fine shape—nearly globular, (7) beauty of color—pure white with little splashes of red, especially about the eyes, (8) superior table quality either baked or boiled, (9) long-keeping

characteristics, and (10) the best combination of the above points, making it an A 1 all-round potato.

It is sufficient to say that every claim was substantiated by the experience of our customers. From a single tuber one customer reports ten meals of fine potatoes for a family of three and a peck for seed. Another with ordinary culture raised 13-4 bushels from one pound of seed, with hardly a single small potato in the lot, and so on. On our own grounds they out-yielded the Green Mountain planted alongside and receiving the same culture, and while the latter rusted and rotted badly (neither were sprayed) this variety was nearly exempt.

Mr. Willis G. Jones of Connecticut, at whose suggestion Farmer's Friend was given a place among the names from which the final selection was made, writes:

Your Nameless Potato is all you claim for it. I planted eleven kinds in one row. Nine of them rotted badly, yours and one other did not rot at all. What the farmers want now is a round white or netted potato to take the place of the red Stray Beauty. Round Potatoes take the place of long ones in my market. The "Nameless" fills the place that is why I named it FARMER'S FRIEND.

By Express: Per bu., \$3.50; Peck, \$1.00. By Mail, postpaid: Per lb., 25 c.; tuber, 10 c.

For 50 cts.

we will mail the entire collection of EASTMAN'S SPECIALTIES, one tuber of Farmer's Friend Potato, and one packet of each of the seven varieties of seeds, including the "Extra Selected" strains of Tomato and Sweet Corn.
